Golden Circle: Mortah | مرتاح

Digital Marketing Specialist Final Project – Milestone 1

WHY

> **"Comfort and trust are the right of everyone who spends their day at a desk."**

We believe long hours of sitting affect people's health and focus, and that modern ergonomic furniture is the answer. Customers deserve to buy furniture knowing its quality is reliable, and we aim to reduce the quality shortcomings and exploitation that have eroded people's trust in the furniture market.

HOW

- **Locally manufactured, quality-controlled:** We contract with carefully selected Egyptian factories after research and comparison. We visit them, test each product before launch, and sell under our own company name.
- **Ergonomic modern design:** We research the latest global design trends and apply human-body measurements to protect users' health.
- **Exclusive creative designs:** Our own in-house line of original designs for gaming, work, and study setups sets us apart.
- **Custom orders:** Customers can request a design made to their taste, built to the same standards.
- **Competitive pricing:** Modern furniture at prices competitive with similar modern brands.
- **Trust guarantee:** A return policy, plus proof of real work through photos, videos, and customer reviews.
- **Delivery and installation:** Products arrive assembled at the customer's door, with an installer for complex pieces.
- **Gradual expansion:** We start in Cairo, Giza, Alexandria, and the northern governorates, then grow to all of Egypt.

WHAT

> **Mortah is a website and social media page that sells locally made modern office furniture (gaming chairs, regular office chairs, and desks), all designed to support users' health, with comfortable design and reliable quality, delivered and installed at the customer's door.**
